

Project ALIVE

Accessible Life-saving Integrated Vaccine Equity

Project ALIVE

Project ALIVE (Accessible Life-saving Integrated Vaccine Equity) is a short-term focused effort to remove barriers to COVID-19 vaccinations for people with disabilities living in the rural areas of Arkansas, Missouri, and Montana. Rooted in the values of self-determination and self-direction, the project does not seek to persuade or convince, but will serve as a resource for those who want the vaccine and those seeking further information in order to make an informed decision.

Project ALIVE Resources

These materials are meant as an information source for people with disabilities to use when deciding to get vaccinated or boosted and how to stay safe during the COVID-19 pandemic.

- [Two trainings for public health professionals](#) with Nursing Continuing Education (CE) credits available:
 - Legal Obligations to People With Disabilities Throughout the Vaccination Process: An overview of obligations of vaccination providers to people with disabilities under the Americans with Disabilities Act and the Rehabilitation Act of 1973. Comes with an accompanying access checklist.
 - Using a Trauma-Informed Framework for Mitigating Disability Bias: An overview of how to plan and implement best practice delivery of COVID-19 vaccination processes for people with disabilities. Comes with an accompanying inclusivity equity checklist.

Nursing Continuing Education Certificate: In order to earn your certificate, learners must attend the training completely, and submit an evaluation form for each training. Below each training are the links for submitting an evaluation form for a certificate. Each webinar is approved for 1.5 contact hours. Your certificate will be emailed to the address provided within 24 hours. If you don't see a certificate within that time, please email caroline@lcinsightsolutions.com for technical assistance. Nursing continuing education certificate expiration date: October 1, 2024.

- [Educational Materials:](#)
 - Infosheet: Types of Masks to Protect Against COVID-19
 - Booklet: COVID-19 Myths and Facts: Information You Need to Know
