UNIVERSITY OF
MONTANA

Mission

At the University of Montana our mission is simple
Our mission is inclusive prosperity

Mission Statement

The University of Montana transforms lives by providing a high-quality and accessible education and by generating world-class research and creative scholarship in an exceptional place. We integrate the liberal arts and sciences into undergraduate, graduate and professional studies to shape global citizens who are creative and agile learners committed to expanding the boundaries of knowledge and to building and sustaining diverse communities.

Vision

The University of Montana will be a **Flagship for the Future**, fostering inclusive prosperity and democracy and creating new knowledge and ways of learning

Prosperity

We aspire to cultivate prosperity on an individual and collective level.

Prosperity is characterized by meaningful work that enables individuals to support themselves and their families. Prosperity is also marked by healthy relationships, lifelong curiosity, and a deep sense of responsibility to one's community.

We enhance the collective prosperity of our community by developing an educated workforce to fuel job growth and business formation, as well as an informed, engaged citizenry that is vital to a healthy democracy. We produce new knowledge and work collectively with local, state, and national partners to tackle complex challenges and address urgent needs.

Inclusion

We aspire to serve learners from all backgrounds and any hometown large or small, and we are deeply committed to making a UM education both accessible and affordable for all.

We also aspire to serve learners at all stages of their lives and careers by providing a platform for learning that is adaptable and durable— whether individuals are just graduating high school, serving our country, seeking to progress in their careers, or looking for a fresh start. In partnership with employers, industry, and other educators, we forge new ways to serve those who may have never imagined that higher education was for them.

We cultivate an engaged citizenry and healthy democracy by bringing into conversation diverse perspectives to build solutions together.

New ways of learning

We aspire to create a better future by reshaping how we deliver education.

We recognize the diversity in how human beings learn and are dedicated to serving our students and employees as whole individuals in search of meaning, well-being, career fulfillment, and community connection.

Priorities for Action

UM's Priorities for Action serve as values that guide our decisions and actions

PFA 1   *PLACE STUDENT SUCCESS AT THE CENTER OF ALL WE DO*

In all of our decisions and actions, we will put the success of our students first. We will focus on student retention, persistence, and success through graduation and beyond.

PFA 2   *DRIVE EXCELLENCE AND INNOVATION IN TEACHING, LEARNING, AND RESEARCH*

Our curriculum, pedagogy, and research will evolve and adapt to best prepare students and communities to succeed in a dynamic, uncertain world.

PFA 3   *EMBODY THE PRINCIPLE OF "MISSION FIRST, PEOPLE ALWAYS"*

People make UM successful. We will focus on people's growth and learning, and on fostering a diverse and inclusive campus.

PFA 4   *PARTNER WITH PLACE*

We benefit greatly from our natural setting and our connection to our community, state, and region. We will both use and strengthen that asset through collaborative learning opportunities, research, and service.

PFA 5   *PROUDLY TELL THE UM STORY*

We are an institution whose transformative impact on individual students, Montana, and the world needs to be known.

Our Approach to Strategy

We shape and execute strategy to fulfill our mission, pursue our vision, and serve our students and the state of Montana in the most effective way possible. Effective strategy is an iterative process. Therefore, each year we review our University's mission and strategic vision, assess the progress we've made over the course of the current academic year, and develop a playbook for the year ahead to move us toward our collective vision.

As part of this process, we:

- Reflect on and celebrate successes and lessons learned
- Examine the external environment to identify new challenges and opportunities
- Consider where to invest precious human and financial resources for highest impact

This year's playbook contains eight long-term objectives that focus on enrollment, student success, curricular adaptation, economic and civic development, amplified impact through engagement, and internal capacity around human resources, data, and technology.

The projects highlighted in this playbook represent cross-sector, urgent opportunities and needs. These projects do not represent all of the efforts and resources focused on achieving our institutional objectives. University sectors, individual units, and existing institutional efforts like those outlined in UM's Diversity, Equity, and Inclusion plan, contribute to meeting our objectives.
